Re: Notice of Ex Parte Presentation
Vonage Petition for Declaratory Ruling, WC Docket No. 03-211

Dear Ms. Dortch:

On November 8, 2004, I responded to a question posed by Daniel Gonzales, Legal Advisor to Commissioner Martin, regarding the subscriber connection to Time Warner Cable's Digital Phone service. In particular, I explained that when a customer orders Digital Phone service, Time Warner Cable installs a new cable modem/telephony device called a Multimedia Terminal Adapter or "MTA" in the customer's home. When making a call, the MTA converts the voice communication to "IP" packets, which then traverse Time Warner's broadband cable facilities.

Pursuant to Section 1.1206(b) of the Commission's rules, copies of this notice are being filed electronically in the above-captioned proceeding for inclusion in the public record. Should you have any questions, please do not hesitate to contact me.

Respectfully submitted,

Steven N. Teplitz
Vice President and Associate General Counsel
Time Warner Inc.

cc Daniel Gonzales
